SHIBAA ADHIKARI

Frontend Developer

Kathmandu , Nepal • 9763206823 • shibaaadhikari0@gmail.com

in @ www.linkedin.com/in/shibaaadhikarii ◯ @ https://github.com/shibaaAdhikari

Frontend Developer proficient in React, Tailwind CSS, Redux, and design tools like Figma and Adobe XD. Experienced in collaborating with cross-functional teams to deliver pixel-perfect designs while adhering to international norms and strict QA/QC standards. Skilled in building responsive web applications and optimizing user interactions for seamless performance.

EXPERIENCE

Frontend Developer   Chakrapath, Kathmandu

Parijat Infotech   Feb, 2024 - Present

- Built fully responsive websites from Japanese UI designs (Adobe XD, Figma, Illustrator) using Sass, Tailwind CSS, and CSS.
- Customized and maintained SEO-friendly templates using Liferay CMS.

Software Engineer Trainee   Baneshwor, Nepal

Optimum Futurist   Mar, 2023 - Jul, 2023

- Collaborated with a team of six developers from requirement definition to successful user acceptance testing.
- Independently developed a Spotify clone using the MERN stack.
- Developed small components for in-house projects using React.
- Implemented features such as reports and add-to-favorites.

EDUCATION

Bachelors of Computer Application   Xavier International College

                                                                                                        Nov, 2019 - Oct, 2024

PROJECTS

Laliguras

- Redesigned the landing page of Laliguras, updating it from the old version to a modern, improved design.
- Developed a Tours Cards component that dynamically maps and displays all related tour destination cards.
- Implemented a hotel listing feature with search functionality, allowing hotels to be filtered and displayed based on ratings.
- Utilized Next.js, Tailwind CSS, and Redux technologies to implement the features.

https://laliguras.de/

Gharkokaam

- Created the Report Abuse page.
- Developed the "Add to Favourites" component.
- Utilized React.js, Reactstrap technologies to implement the features

https://gharkokaam.com/

Spotify Clone

- Built a music streaming web application that allows users to play, delete, and add music to their favourites.
- Utilized MERN technologies to build the web applications.

https://github.com/shibaaAdhikari/music-stream

Restaurant Management System

- Built a Restaurant Management System using Core PHP and MySQL.
- Implemented CRUD operations for menu, orders and categories.

https://github.com/shibaaAdhikari/RestaurantManagement

ACHIEVEMENTS
